## **1. Executive Summary**

Community Services of Northeast Texas, Inc. (CSNT) has conducted a Community Assessment for the 12 county, 6,546.30 square mile service area including Bowie, Camp, Cass, Delta, Franklin, Hopkins, Lamar, Marion, Morris, Rains, Red River and Titus counties. The results of the assessment seem to be trending back to pre-pandemic trends. The need that rose to the top over the last three years is employment/job training. Other needs identified include higher education, healthcare, transportation and affordable housing. It is likely that these needs could have risen to the top as a result of the end of the pandemic. Families are spending more time attempting to make ends meet. When surveyed, a main concern for individuals was budgeting so they could make it to the next paycheck.

## **2. Introduction**

**(narrative or the organization and community background and profile)**

### **a. Background- CNA is a federal requirement (USHHS IM 49 and IM 138)**

#### **How does this assessment tie to the development of the agency CAP and SP**

Conducting a Community Needs Assessment (CNA) is a federal requirement. USHHS IM 49 states “The entity and its board complete regular assessments of the entity’s overall mission, desired impact(s) and program structure, taking into account: 1) the needs of the community and its residents; 2) the relationship, or context of the activities supported by the entity to other anti-poverty community development services in the community; and 3) the extent to which the entity’s activities contribute to the accomplishment of one of more of the six ROMA national goals.”

In USHHS IM 138, the Office of Community Services (OCS) recommends that States use the Organizational Standards developed by the OCS-supported CSBG Organizational Standards Center of Excellence (COE). These standards reflect the requirements of the CSBG Act, good management practices and the values of Community Action. Organizational Standards 3.1-3.5 must be met by conducting and completing a Community Assessment every 3 years. This report must contain current data in regards to how poverty relates to the gender, age and race/ethnicity of the persons in the service area, qualitative and quantitative data on the geographic service area and key findings on the causes and conditions of poverty and the needs of the communities assessed. The governing board of the agency must formally accept the completed community assessment.

The agency’s Community Needs Assessment is the plan that drives the other agency plans such as the Community Action Plan (CAP) and the Strategic Plan (SP). While completing a Community Needs Assessment, the strengths and needs of the individuals and families in the agency service area are revealed. Strengths and needs of the communities served are the driving factor for the focus on which services are targeted on

the Community Action Plan and the Strategic Plan. Although the CAP is completed annually and the SP is completed every 5 years, these plans are “living documents” and can be adjusted as strengths and needs in the communities served change.

**b. Organization Profile**  
**History of Organization**

Community Services of Northeast Texas, Inc. was founded in August 1965 as one of the original “war on poverty” agencies. CSNT is a private non-profit corporation, operating as a federally recognized Community Action Agency (CAA), which seeks to serve low income families and individuals in the Northeast Texas area. The main Texas counties served by CSNT are Bowie, Camp, Cass, Delta, Franklin, Hopkins, Lamar, Marion, Morris, Rains, Red River and Titus Counties. The agency’s primary goal is to identify and combat the major causes and conditions of poverty and move families toward self-reliance.

**Mission**

CSNT applies all available strategies enabling Northeast Texas families to lead improved, empowered, and self-reliant lives.

**Vision**

To be the leading organization in our region which empowers families to be self-reliant, educated, and healthy.

**Programs operated and funding sources**

The Community Services division of CSNT administers Salvation Army funds, the Comprehensive Energy Assistance Program (CEAP), the Community Services Block Grant (CSBG), Tenant Based Rental Assistance (TBRA), Veteran’s Services Now (VSN) program and the Targeting Local Communities (TLC) program. CEAP, CSBG and TBRA are funded by the Texas Department of Housing and Community Affairs (TDHCA). The Veteran’s Services Now program is funded by the Texas Veteran’s Commission Funding for Veteran’s Assistance.

The Head Start division of CSNT is funded by the Office of Head Start (OHS). Head Start is a comprehensive family-focused child development program which prepares children for school success and helps families remain involved in the education process. The program serves income eligible children ages 3-5 and their families by providing educational, health, dental and social services. The agency recently added an Early Head Start Program, which serves 16 children ages Birth to 3 years. If granted an expansion grant, CSNT plans to add more Early Head Start programs across the service area. CSNT

serves hundreds of children and their families in Bowie, Camp, Cass and Morris Counties.

**c. Community Profile**

**Description of service area (counties), information on counties served, total population, # in poverty, median income, unemployment rate, etc  
Table/chart or narrative**

Community Services of Northeast Texas, Inc. serves twelve counties including Bowie, Camp, Cass, Delta, Franklin, Hopkins, Lamar, Marion, Morris, Rains, Red River and Titus.

**The total population for the twelve county service area is 313,653, with 50,087 or 16.43% of persons in the service area below 100% of the federal poverty level (FPL).**

Report Area	Below 185% FPL All Ages No of Persons	Below 185% FPL All Ages Poverty Rate	Below 125% FPL All Ages No of Persons	Below 125% FPL All Ages Poverty Rate	Below 100% FPL All Ages No of Persons	Below 100% FPL All Ages Poverty Rate

Texas	2,172,978	1,817,348	18.94%	10.60%
United States	10,447,540	30,074,044	17.24%	11.45%

### 3. Timeline and Activities

#### Reference: Step 1: Timeline

#### Community outreach performed to attain community input or involvement

#### Relate CNA process to the ROMA Cycle

#### Timeline

Timeline	Sample Dates	Activity
3 weeks	Feb 10 <sup>th</sup> – March 2 <sup>nd</sup>	Planning, developing forms, community outreach
4 weeks	March 3 <sup>rd</sup> – March 31 <sup>st</sup>	Collect Qualitative Data (surveys, interviews, forums, focus groups)
2 weeks	April 1 <sup>st</sup> - April 15 <sup>th</sup>	Collect Quantitative Data
3 weeks	April 15 <sup>th</sup> - May 6 <sup>th</sup>	Analyzing Data
2 weeks	May 7 <sup>th</sup> - May 21 <sup>st</sup>	Preparing Report
1 week	May 22 <sup>nd</sup> – 29 <sup>th</sup>	Present Report to Board for approval
15 Weeks	June 1 <sup>st</sup>	Due to TDHCA June 1 <sup>st</sup>
19 weeks	June 1 <sup>st</sup> -30 <sup>th</sup>	Publicize results of CNA

#### Relate CNA process to the ROMA Cycle

The Community Needs Assessment process includes all phases of the ROMA cycle. The needs of the community are assessed through surveys, interviews, forums and focus groups. Planning involves developing an outreach plan. Implementation of the Community Needs Assessment comes in when the agency Community Action Plan and Strategic Plans are written. After the plans are written, we experience achievement of results by putting the plans into action. The agency is always evaluated to see if any improvements or changes need to be made to the agency plans.

## Qualitative Data

### 4. Data Collection Plan and Methodologies Conducted in each county (OS 3.3 & 2.2)

Clients, community members, community partners, board members, elected officials, faith based organizations, school administrators and our community resource coordination group were invited to complete a survey or interview and participate in community forums and focus groups for the Community Assessment.

County Name	Poverty Population	County Pov Pop*	Survey	Interviews	Focus Groups	Forums

<b>Titus</b>	14	637	19	28

**c. CAA Organizational Strengths, Assets, Challenges**

**Describe the organization strengths, assets, and challenges. May include areas such as; years in business, funding levels, array of programs, community support, partnerships, strong board, low wages for staff, high turnover, limited education of key staff, limited funding levels, etc.**

<b>Strengths/Assets</b>	<b>Challenges</b>
In business since 1965	Retaining board members
Multiple funders	Limited unrestricted funding
Community Partnerships	Community Support
Wide array of programs	Not well known in the community

**d. Gaps in Services and Barriers for Each County**

<b>County</b>	<b>Gaps</b>	<b>Barriers</b>
---------------	-------------	-----------------

<b>Bowie</b>	No gaps in services	Lack of affordable child care
<b>Camp</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Cass</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Delta</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Franklin</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Hopkins</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Lamar</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Marion</b>	Lack of State offices to apply for assistance, Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Morris</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of household lack higher education, lack of affordable child care
<b>Rains</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Red River</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care
<b>Titus</b>	Lack of mental health providers	Lack of public transportation, lack of trade schools or colleges, heads of households lack higher education, lack of affordable child care

**e. Trends for each County**

<b>County</b>	<b>Trends</b>
<b>Bowie</b>	Poverty rate change has decreased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, population is likely to increase due to youth from more rural areas moving in, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach

<b>Camp</b>	Poverty rate change has decreased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, population is likely to decrease due to youth moving out, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach
<b>Cass</b>	Poverty rate change has decreased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, population is likely to increase due to youth from more rural areas moving in, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach
<b>Delta</b>	Poverty rate change has decreased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, population is likely to decrease due to youth moving out, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach
<b>Franklin</b>	Poverty rate change has stayed the same since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, population is likely to decrease due to youth moving out, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach
<b>Hopkins</b>	Poverty rate change has decreased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, population is likely to decrease due to youth moving out, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach
<b>Lamar</b>	Poverty rate change has increased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, population is likely to increase due to youth moving in from more rural counties, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach
<b>Marion</b>	Poverty rate change has decreased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, poverty is likely to stay the same, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach
<b>Morris</b>	Poverty rate change has increased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, unemployment rate is likely to decrease due to youth moving out, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach
<b>Rains</b>	Poverty rate change has decreased since 2000, unemployment rate is likely to improve due to pandemic unemployment benefits ending, unemployment rate is likely to stay the same, child care needs are likely to stay the same due to lack of affordable child care, mental health conditions are likely to improve as individuals return to normal activities, home energy efficiency is likely to improve due to increased outreach

**1. Results: Top 5 Needs for Service Area Categorized by CSBG Domains**  
**Include Step 4 Rank Needs tab: Final Ranking for Service Area information.**  
**(Reference Step 4b Worksheet)**

Rank	Need	CSBG Domain
1	Education	Education
2	Employment	Employment

<b>3</b>	<b>Transportation</b>	<b>Income and Asset Building</b>
<b>4</b>	<b>Affordable Housing</b>	<b>Housing</b>
<b>5</b>	<b>Healthcare</b>	<b>Health and Social Behavioral</b>

**o Describe how the organization arrived at this conclusion.**

After collecting data from the US Census, cap engagement network, surveys, interviews, focus groups and forums, the data was entered into the needs assessment worksheet. It was determined that our top 5 needs include Mental Health, Home Energy Efficiency, Food Insecurity, Budgeting and Education. As an agency, we have decided that we are able to address these needs not only with our own funding, but also through partnerships within our 12 county service area.
